

PROFILE

As an Dynamic and innovative Frontend Developer i am Proficient in modern frontend technologies including HTML5, CSS3, JavaScript, and frameworks like React and next js and Tailwind css.Skilled in translating UI/UX designs into responsive, high-performance code.

PROJECTS

Spotify clone Apr 2024 Apr 2024  
<https://ridhamtech.freewebhostmost.com>  
I built my first academic project by my self using html,css, javascript it has built in functionality for to release new albums and play or pause or forward and backward using button.

Movie Guide App May 2024 - May 2024  
<https://moviesbyridham.netlify.app/>  
So built movie Guide App using html, css, javascript, API it allows users to enter any movie name and with help of API it returns the movie data like poster, name, catagory, actors and many more..

I also added my Remaining Projects in my [github](#) profile and On my [Website](#).
